About us

► Societe Petroliere Internationale

SPI is a prominent oil and gas firm established and based in Sultanate of Oman.

Specializing in the exploration, production, and distribution of energy resources, the company is dedicated to driving innovation and sustainable practices within the dynamic energy sector.

With a pivotal and influential role in the global oil and gas supply chain, SPI is committed to ensuring efficient supply facilitation and distribution, thus contributing significantly to the smooth functioning of the global energy supply network.

Through a persistent pursuit of operational excellence, SPI aims to decisively contribute to meeting the energy needs of the future while playing an integral part in shaping the global energy landscape.

What we do

▶ International Trade

Expanding our market reach, we engage in international trade to establish and strengthen global partnerships. By leveraging our extensive network and deep industry knowledge, we ensure a steady and reliable supply of energy resources worldwide, fostering economic growth and energy security in diverse markets.

▶ Exploration, Production, Distribution, Storage

We specialize in projects that optimize refining processes to produce high-quality fuels, utilize advanced technologies for discovering new energy reserves, ensure the seamless and safe delivery of gas and oil products to meet global demands, and provide advanced tank storage solutions for secure and efficient handling of petroleum products.

▶ Banking & Finance

We provide comprehensive banking and finance solutions tailored to the unique needs of the oil and gas industry. Our financial services support project funding, risk management, and strategic investments, ensuring robust financial health and sustainability for our clients and partners.

▶ Network

We facilitate networking opportunities to connect industry professionals, foster collaboration, and drive innovation. Our events and platforms bring together key stakeholders, enabling the exchange of ideas, best practices, and cutting-edge technologies to advance the oil and gas industry.

Refined Products, Natural Gas & Crude Oil

► Supply of Products

Our network of supply ensures end-users with strategic access to a comprehensive range of both crude and refined products.

We specialize in the supply of :

- Crude
- Gasoline
- Diesel
- Jet fuel
- LPG
- LNG

leveraging our expertise in refining and distribution.

With a commitment to reliability and efficiency, we cater to diverse industrial and consumer needs worldwide.

Our seamless logistics and robust infrastructure enable us to deliver high-quality products consistently, meeting stringent standards and exceeding customer expectations.

Whether for commercial, industrial, or consumer applications, we are dedicated to providing timely and dependable solutions that support our clients' operational success.

Our Values

► Who We Are at SPI

At Société Pétrolière Internationale (SPI), our foundation is built on unwavering core values that define our leadership and excellence in the oil and gas industry.

These values are the cornerstone of everything we do:

Excellence:

We relentlessly pursue exceptional quality and innovation in all facets of our operations.

Integrity:

We uphold honesty, transparency, and ethical conduct in every interaction and decision.

Innovation:

We boldly pioneer advanced solutions to meet the evolving challenges of the industry.

Sustainability:

We are committed to environmental stewardship and responsible corporate citizenship.

Collaboration:

We passionately embrace teamwork and partnerships as the catalysts for shared success.

Safety:

We prioritize the safety and well-being of our employees and communities without compromise.

Global Citizenship:

We boldly contribute positively to society through impactful initiatives and community engagement.

Our vision

► SPI vision in the Oil and Gas Industry

In the ever-changing oil and gas industry, Société Pétrolière Internationale stands out as a beacon of forward-thinking leadership, driven by innovation, efficiency, and strategic planning. Headquartered in the Sultanate of Oman, SPI is committed to establishing benchmarks within the sector and progressing towards a future of energy marked by sustainable resource management and outstanding operational performance.

SPI aims to be a leading force in the oil and gas industry by utilizing pioneering technologies and operational excellence. The company aspires to optimize and cater for explorations, resource extraction, drilling, refining and to assist on global energy demands with a strong consistent approach.

In line with our strategic vision, SPI is currently undertaking a major tank storage project aimed at enhancing logistical capabilities and operational efficiency. This initiative underscores our dedication to expanding infrastructure that facilitates the safe and reliable storage and transportation of petroleum products. The tank storage facility will integrate cutting-edge safety protocols and environmental controls to ensure adherence to rigorous industry standards and regulations.

SPI's tank storage project not only enriches our service offerings but also reinforces our reputation as a dependable partner in the global energy supply chain. By investing in critical infrastructure, we strengthen our capacity to effectively respond to diverse market demands while upholding our commitment to operational excellence and customer satisfaction.

In essence, Société Pétrolière Internationale remains dedicated to fostering innovation and sustainability within the oil and gas sector, guided by a steadfast vision of leadership and responsibility, positioning SPI at the forefront of a resilient and sustainable future for the petroleum sector.
